SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, React, Astro

Tools & Platforms: Git/GitHub, Command Line, Chrome Dev Tools, Claude AI

Design: Responsive Design, Accessibility, Figma, Penpot, Affinity, Canva

SELECTED PROJECTS

Weather Now App

React app that lets users check current, hourly, and daily weather conditions for any location. Made use of various APIs to load data. Ensured keyboard accessibility.

Scoot Multi Page Site

Multi-page website for fictional scooter sharing service. Used CSS Grid and Flexbx to achieve responsive layouts. Implementated resuable decorative patterns.

React Contact Form Component

React form component featuring custom validation using native API. Implemented errors handling to provide immediate feedback without being intrusive for better UX.
